ANNALS OF SURGERY
Vol. 225, No. 6, 817–822
© 1997 Lippincott–Raven Publishers

Subject Index to Volume 225 (January–June 1997)

A

Abdominal aortic aneurysm, inflammatory, 155
Abdominal colectomy, for hereditary nonpolyposis colorectal cancer, rectal cancer risk after, 202
Abdominal trauma, blunt, splenic injury in children, accuracy of abdominal ultrasonography, 408
Absorption. *See* Intestinal absorption
Achalasia, laparoscopic cardiomyotomy plus partial fundoplication for, 655
Acute phase response, cultured hepatocytes, fatty acids and acute phase protein production, 103
Adenocarcinoma
  ampulla of Vater, 590
  gastric
    laparoscopic management, 262
    outcomes comparison of proximal *vs.* distal cancer, 678
  pancreatic, postoperative adjuvant chemoradiation protocols, 621
  small bowel, 300
Adenovirus vector, gene therapy for pancreatic carcinoma (mice), 609
Adrenalectomy
  bilateral, for Cushing's syndrome, anterior vs. posterior approach, 63
  laparoscopic, 495
Ambulatory surgery, breast cancer management (*letter*), 341
Amphotericin B, local decontamination, prevention of esophagojejunostomy anastomotic leak, 172
Ampulla of Vater, adenocarcinoma, 590
Amputation, after popliteal artery injury, factors influencing, 518
Anal transition zone, preservation, in ileal pouch-anal anastomosis, 666
Anastomotic leak, esophagojejunostomy, prevention via topical decontamination, 172
Aneurysm, inflammatory abdominal aortic aneurysms, 155
Anticoagulation, systemic, limb salvage in popliteal artery injury, 518
Antimicrobial therapy, topical decontamination, prevention of esophagojejunostomy anastomotic leak, 172
Antireflux surgery
  Nissen fundoplication *vs.* Toupet fundoplication, 647
  for reflux esophagitis, conservative therapy *vs.*, 295
Aortic aneurysm, inflammatory, 155
Aortic valve disease
  congenital, 503
  in elderly population, aortic valve replacement for, 793
Aortofemoral bypass, laparoscopic, in animal model (*letter*), 133
Appendectomy, contemporary appraisal, 252
APUDoma, noncarcinoid, hepatic metastases, liver transplantation for, 355

B

Bacterial translocation, role of mucosal bacterial adherence and intestinal mucus barrier (rat), 317
Balloon dilatation, percutaneous, for laparoscopic cholecystectomy-related bile duct injuries, 459
Barrett's esophagus, malignant degeneration, p53 tumor suppressor gene in, 17
Biliary tract
  bile duct injuries, laparoscopic cholecystectomy-related, 268, 459
  lipid composition, during cholesterol gallstone formation (prarie dog), 382
Biliary tract disease, in heart transplant recipient, 686
Bioartificial liver, for acute liver failure, phase I clinical trial, 484
Biopsy
  core needle biopsy
    atypical ductal hyperplasia, prevalence of occult breast cancer, 726
    sterotactic (*letter*), 241
  routine contralateral breast biopsy in breast cancer, 370
  single lymph node, intraoperative lymphatic mapping of melanoma, 1
Blood flow
  pancreatic, in chronic pancreatitis, effect of ethanol (cat), 223
  portal and hepatic, differential effects of TIPS *vs.* HGPCS, 601
Blood transfusion, colorectal cancer recurrence (*letters*), 127–130
Body composition, in short bowel syndrome, effect of low-dose recombinant human growth hormone, 88
Bone mass, loss, postgastrectomy (pig), 181
Bone mineral density, postgastrectomy (pig), 181
Book reviews, 122, 235, 339, 439
Breast, atypical ductal hyperplasia in core needle biopsy, prevalence of occult breast cancer, 726
Breast cancer
  ambulatory surgical management (*letter*), 341
  carcinoma *in situ*, risk of contralateral breast cancer, 69
  core needle biopsy, sterotactic (*letter*), 241
  in elderly population, effects of age on screening, treatment strategies, and outcome, 579
  occult, atypical ductal hyperplasia in core needle biopsy specimen and, 726

routine contralateral breast biopsy in, 370
sentinel lymphadenectomy in (*letter*), 126
skin-sparing *vs.* tradition mastectomy, 570
Burn injury
pediatric, mortality determinants in massive pediatric burns, 554
systemic inflammatory response, plasma endotoxin in, 530
Bypass surgery. *See* Coronary artery bypass surgery

C

Calcium metabolism, postgastrectomy (pig), 181
Cancer. *See specific organs*
Carcinoid
hepatic metastases, liver transplantation for, 355
small bowel, 300
Carcinoma. *See specific organs*
Carcinoma *in situ*, breast
ductal, atypical ductal hyperplasia in core needle biopsy specimen and, 726
risk of contralateral breast cancer, 69
Cardiomyotomy, laparoscopic, for achalasia, 655
Cardiovascular disease
aortic valve disease
congenital, 503
in elderly population, 793
coronary artery disease. *See* Coronary artery bypass surgery
Carotid artery stenosis, recurrent, results of redo carotid endarterectomy, 512
Carotid endarterectomy, for recurrent stenosis, 512
Catabolism
insulin-like growth factor-1 in (*letter*), 130
muscle proteolysis during, ubiquitin-proteasome pathway, 307
Catheters/catheterization, positioning right atrial catheters during surgery, ECG technique, 165
Cefotaxime, local decontamination, prevention of esophagojejunostomy anastomotic leak, 172
Cell differentiation, pancreatic *reg* gene expression (rat acinar cell line), 327
Cell proliferation, pancreatic *reg* gene expression (rat acinar cell line), 327
Chemoradiation, postoperative adjuvant protocols, pancreatic carcinoma, 621
Children. *See* Pediatric population
Chloride, gallbladder transport, during cholesterol gallstone formation (prairie dog), 382
Cholangitis, primary sclerosing, orthotopic liver transplantation for, 472
Cholecystectomy, laparoscopic, bile duct injuries, 268, 459
Cholecystokinin, clinical uses, 145
Colectomy, abdominal, for hereditary nonpolyposis colorectal cancer, rectal cancer risk after, 202
Colon cancer. *See also* Colorectal cancer
survival in Sweden (1973–1990), convergence between catchment areas, 208
Colorectal cancer
hepatic metastases
cryosurgery for, 39, 193
repeat hepatectomy for, 51
hereditary nonpolyposis, rectal cancer risk after abdominal colectomy, 202
prognosis
blood transfusions and (*letters*), 127–130
relation to postoperative stay (*letter*), 342
Computed tomography (CT scan), dynamic, pancreatitis in renal transplant recipient, 217
Cooper ligament, repair (*letter*), 239
Core needle biopsy
atypical ductal hyperplasia, prevalence of occult breast cancer, 726
stereotactic, breast cancer (*letter*), 241
Coronary artery bypass surgery
minimally invasive coronary artery bypass grafting, cost effectiveness, 805
multiple internal thoracic artery bypass grafts, 785
Cricopharyngeal myotomy, sleeve recording of upper esophageal sphincter resting pressures during, 229
Crohn's disease, DNA repair gene *MLH1* in, 718
Cryosurgery
liver metastases, 193
for malignant liver tumors, 39
Culture studies
fatty acids and hepatocyte acute phase protein production, 103
glutathione and nitric oxide synthesis in cultured hepatocytes, 76
Cushing's syndrome, bilateral adrenalectomy for, anterior *vs.* posterior approach, 63
Cytokine(s)
interleukin-1, central vs. peripheral metabolic responses (rat), 246
polymorphonuclear leukocyte cytokine receptor expression, integrin and, 757
proinflammatory, in inflammatory and metabolic responses, 243
type-2 cytokines in trauma (*letter*), 132

E

Economic issues
cost effectiveness of minimally invasive coronary artery bypass grafting, 805
hospital cost for infants with tetralogy of Fallot, one-stage *vs.* two-stage repair, 779
laparoscopic cholecystectomy-related bile duct injuries, 268
Editorial
advances in the care of the patient with malignant melanoma, 15
gut hormones: yesterday, today, and tomorrow, 143
liver transplantation for hepatic malignancies, 345
role of proinflammatory cytokines in inflammatory and metabolic responses, 243
Education, Halsted, William Stewart, 445
Elderly. *See* Geriatric population
Electrical units (*letter*), 238
Electrocardiography, technique for positioning right atrial catheters during surgery, 165
Endocrinology, gastrointestinal, 143

Endoscopy, psychomotor skills, right-handed *vs.* left-handed individuals, 333
Endosonography, three-dimensional, rectal cancer staging, 432
Endotoxemia, gut-derived, postoperative glutamine metabolism in obstructive jaundice (rat), 391
Endotoxin
  cardiovascular response, tumor necrosis factor and nitric oxide in (*letter*), 342
  mucosal bacterial adherence, intestinal mucus barrier, and bacterial translocation (rat), 317
  plasma, in posttraumatic inflammatory response, 530
Enteral feeding, recovery of GALT and upper respiratory tract immunity after parenteral nutrition (mice), 707
Esophagitis. *See* Reflux esophagitis
Esophagojejunostomy, anastomotic leak, prevention via topical decontamination, 172
Esophagus
  achalasia, laparoscopic cardiomyotomy and fundoplication for, 655
  Barrett's esophagus, *p53* tumor suppressor gene in, 17
  perforation, nonoperative management, 415
  upper esophageal sphincter resting pressures, sleeve recording during cricopharyngeal myotomy, 229
Ethanol, effects on pancreatic blood flow and interstitial pH in chronic pancreatitis (cat), 223

F

Fatty acids, polyunsaturated, modulation of hepatocyte acute phase protein production *in vitro*, 103
Fenestration, for adult polycystic liver disease, 286
Foot, cutaneous melanoma, 544
Fundoplication
  Nissen. *See* Nissen fundoplication
  partial, laparoscopic cardiomyotomy plus, for achalasia, 655
  Toupet, 647

G

Gallbladder
  ion fluxes, during cholesterol gallstone formation (prairie dog), 382
  left-sided, association with right-sided round ligaments, 274
Gallstone formation, gallbladder ion fluxes and biliary lipids during (prarie dog), 382
GALT. *See* Gut-associated lymphoid tissue
Ganciclovir, induction of sensitivity to, adenovirus-mediated delivery of herpes simplex virus thymidine kinase gene (mice), 609
Gastrectomy
  postprandial hypersecretion of neurotensin after, somatostatin in, 377
  total
    calcium metabolism and bone mineral density after (pig), 181
    esophagojejunostomy anastomotic leak, prevention via topical decontamination, 172
  transabdominal-only approach, for proximal gastric cancer, outcomes comparison to distal gastric cancer, 678
Gastric cancer
  laparoscopic management, 262
  proximal, resection via transabdominal-only approach, outcomes comparison to distal gastric cancer, 678
  total gastrectomy for, esophagojejunostomy anastomotic leak, prevention via topical decontamination, 172
Gastrin, clinical uses, 145
Gastrinoma, hepatic metastases, liver transplantation for, 355
Gastroesophageal reflux disease
  antireflux surgery *vs.* conservative therapy, 295
  duodenal juice in (*letter*), 135
  Nissen fundoplication *vs.* Toupet fundoplication, 647
Gastrointestinal cancer, nutritional depletion in, gastrointestinal glutamine extraction and, 112
Gastrointestinal endocrinology, 143
  clinical uses of gut peptides, 145
Gastrointestinal surgery, after heart transplantation, 686
Gastrointestinal tract, glutamine uptake
  effect of growth hormone and exogenous glutamine (piglet), 97
  in nutritionally depleted gastrointestinal cancer patients, 112
Gene therapy, pancreatic carcinoma (mice), 609
Genetics
  MLH1 and inflammatory bowel disease, 718
  pancreatic *reg* gene expression during cellular proliferation and differentiation (rat acinar cell line), 327
  p53 tumor suppressor gene, in Barrett's esophagus, 17
Genitofemoral nerve, in Pfannensteil incision, 365
Geriatric population
  aortic valve replacement in, 793
  breast cancer, effects of age on screening, treatment strategies, and outcome, 579
Glucagon, clinical uses, 145
Glutamine
  gastrointestinal uptake
    in nutritionally depleted gastrointestinal cancer patients, 112
    in trauma, effect of growth hormone and exogenous glutamine (piglet), 97
  postoperative metabolism in obstructive jaundice, gut-derived endotoxemia and (rat), 391
Glutathione, nitric oxide synthesis in cultured hepatocytes, 76
Growth hormone
  gastrointestinal glutamine uptake in trauma (piglet), 97
  recombinant human growth hormone, effect on body composition and absorptive capacity in short bowel syndrome, 88
Gut-associated lymphoid tissue (GALT), parenteral nutrition-induced changes, effects of enteral feeding (mice), 707
Gut peptides, 143
  clinical uses, 145

H

Halsted, William Stewart, 445
Hand, cutaneous melanoma, 554
Heart transplantation
  surgery after, 686
  ventricular assist devices as bridge to transplantation, 695
Heller myotomy, laparoscopic, for achalasia, 655

Hematologic malignancy, splenectomy for, postoperative complications (*letter*), 131
Hepatectomy
repeat, for colorectal hepatic metastases, 51
right-sided round ligament with left-sided gallbladder anomaly, 274
Hepaticojejunostomy, roux-en-Y, for laparoscopic cholecystectomy-related bile duct injuries, 459
Hepatocellular carcinoma
cryosurgery in, 39
jaundice in, hepatic insufficiency *vs.* obstructive jaundice caused by tumor, 281
Hepatocytes, cultured
fatty acids and acute phase protein production, 103
glutathione and nitric oxide synthesis in, 76
Hernia, incisional, Pfannensteil incision, 365
Hernia repair
laparoscopic repair of paraesophageal hernia, 31
open tension-free hernia repair (*letter*), 240
preperitoneal herniorrhaphy, recurrence after, 422
Herpes simplex virus, thymidine kinase gene, adenovirus-mediated delivery (mice), 609
HGPCS. *See* Portacaval shunt, small-diameter H-graft
Historical perspectives, Halsted, William Stewart, 445
Hormones, gut peptides, 143, 144
Hypopharyngeal muscle, in cricopharyngeal myotomy, sleeve recording of upper esophageal sphincter resting pressures during, 229

I

Ileal pouch-anal anastomosis, stapled *vs.* handsewn, 666
Iliohypogastric nerve, in Pfannensteil incision, 365
Ilioinguinal nerve, in Pfannensteil incision, 365
Immunity, mucosal, effects of enteral feeding (mice), 707
Implants, ventricular assist devices, 707
Infant(s), tetralogy of Fallot, one-stage *vs.* two-stage repair, hospital costs, 779
Inflammatory bowel disease, DNA repair gene *MLH1* in, 718
Inflammatory response
posttraumatic, plasma endotoxin in, 530
proinflammatory cytokines in, 243
Insulin, clinical uses, 145
Insulin-like growth factor-1, in catabolism (*letter*), 130
Integrin(s), polymorphonuclear leukocyte cytokine receptor expression, 757
Interferon(s), IF-α-2b, adjuvant therapy for melanoma, 1
Interleukin(s), IL-1, central *vs.* peripheral metabolic responses (rat), 246
Intestinal absorption, in short bowel syndrome, effect of low-dose recombinant human growth hormone, 88
Intestine, mucosal bacterial adherence, mucus barrier, and bacterial translocation (rat), 317
Intestine, small
malignant neoplasms, 300
segmental reversal, in short bowel syndrome, parenteral nutrition dependency and, 401
Intraoperative lymphatic mapping, melanoma, 1
Islet cell transplantation, portal system access (*letter*), 442

J

Jaundice
in hepatocellular carcinoma, hepatic insufficiency *vs.* obstructive jaundice caused by tumor, 281
obstructive, postoperative glutamine metabolism and gut-derived endotoxemia (rat), 391

K

Kidney transplantation, pancreatitis after, 217

L

Laparoscopy
adrenalectomy, 495
aortofemoral bypass in animal model (*letter*), 133
cholecystectomy, bile duct injuries, 459, 268
in gastric adenocarcinoma management, 262
Heller myotomy and fundoplication for achalasia, 655
preperitoneal herniorrhaphy, recurrence after, 422
repair of paraesophageal hernia, 31
Letters, 126, 238, 341, 442
Lipopolysaccharide, plasma, in posttraumatic inflammatory response, 530
Liver, blood flow, differential effects of TIPS *vs.* HGPCS, 601
Liver cancer
colorectal hepatic metastases, cryosurgery for, 39, 193
cryosurgery in, 39
jaundice in, hepatic insufficiency *vs.* obstructive jaundice caused by tumor, 281
liver transplantation for, 345
neuroendocrine hepatic metastases, liver transplantation for, 347, 355
Liver disease
metastases. *See* Liver cancer, colorectal hepatic metastases
polycystic, adult, fenestration for, 286
primary sclerosing cholangitis, orthotopic liver transplantation for, 472
Liver failure, acute, bioartificial liver in, 484
Liver injury, in experimental peritonitis, neutrophils and (mice), 744
Liver transplantation
for hepatic malignancies, 345
orthotopic, for primary sclerosing cholangitis, 472
Lung injury, in experimental peritonitis, neutrophils and (mice), 744
Lymphadenectomy, sentinel, in breast cancer (*letter*), 126
Lymphoma, small bowel, 300

M

Mammography, screening frequency in elderly population, 579
Manometry, sleeve recording of upper esophageal sphincter resting pressures during cricopharyngeal myotomy, 229
Mapping, intraoperative lymphatic mapping, melanoma, 1
Mastectomy, skin-sparing, oncologic and reconstructive considerations, 570

Median sternotomy, wound infection, management with muscle flaps, 766
Medullary thyroid carcinoma, cervical reoperation for, 734
Melanoma
  advances in surgical care, staging, and adjuvant treatment, 1, 15
  cutaneous, hands and feet, 544
Metabolic response
  interleukin-1 in (rat), 246
  proinflammatory cytokines in, 243
Metastatic disease, hepatic
  cryosurgery for, 39, 193
  liver transplantation for, 345, 347, 355
  repeat hepatectomy for, 51
Molecular biology, melanoma staging, 1
Molecular chemotherapy, pancreatic carcinoma, adenovirus-mediated delivery of herpes simplex virus thymidine kinase gene (mice), 609
Mortality/mortality rate
  laparoscopic cholecystectomy-related bile duct injuries, 268
  mortality determinants in massive pediatric burns, 544
Motilin, clinical uses, 145
Mucinous ductal ectasia. *See* Pancreas, intraductal papillary-mucinous tumors
Mucosal immunity, effects of enteral feeding (mice), 707
Mucosal surfaces, bacterial adherence, mucus barrier, and bacterial translocation (rat), 317
Mucus barrier, intestinal, role in bacterial translocation (rat), 317
Muscle. *See* Skeletal muscle
Muscle flaps, in median sternotomy wound infection, 766
Myotomy, cricopharyngeal, sleeve recording of upper esophageal sphincter resting pressures during, 229

N

Nerve entrapment, in Pfannensteil incision, 365
Neuroendocrine tumors, hepatic metastases, liver transplantation for, 345, 347, 355
Neurotensin, postprandial hypersecretion, in postgastrectomy patient, 377
Neutrophil(s)
  cytokine receptor expression, integrin and, 757
  organ failure in peritonitis, 744
Nissen fundoplication, for reflux esophagitis
  conservative therapy *vs.*, 295
  Toupet fundoplication *vs.*, 647
Nitric oxide, cardiovascular response to endotoxin (*letter*), 342
Nitric oxide synthase, in cultured hepatocytes, glutathione regulation, 76
Nutrition
  enteral feeding, recovery of GALT and upper respiratory tract immunity after parenteral nutrition (mice), 707
  parenteral. *See* Parenteral nutrition
Nutritional depletion, in gastrointestinal cancer patients, gastrointestinal glutamine extraction and, 112

O

Octreotide, clinical uses, 145
Organ failure, in peritonitis, 744
Orthopedic surgery, after heart transplantation, 686

P

p53 (tumor suppressor gene), in Barrett's esophagus, 17
Pancreas
  intraductal papillary-mucinous tumors, 637
  islet cell transplantation, portal system access (*letter*), 442
  reg gene expression during cellular proliferation and differentiation (rat acinar cell line), 327
Pancreatic carcinoma
  gene therapy, adenovirus-mediated delivery of herpes simplex virus thymidine kinase gene (mice), 609
  pancreaticoduodenectomy, postoperative adjuvant chemoradiation protocols, 621
Pancreaticoduodenectomy, pancreatic carcinoma, postoperative adjuvant chemoradiation protocols, 621
Pancreatic polypeptide, clinical uses, 145
Pancreatitis
  chronic, effects of ethanol on pancreatic blood flow and interstitial pH (cat), 223
  necrotizing, quality of life after surgical treatment (*letter*), 238
  in renal transplant recipient, 217
Papillary neoplasms, intraductal. *See* Pancreas, intraductal papillary-mucinous tumors
Paraesophageal hernia, laparoscopic repair, 31
Parenteral nutrition
  recovery of GALT and upper respiratory tract immunity after (mice), 707
  in short bowel syndrome, segmental reversal of small bowel in, 401
Pediatric population
  congenital aortic valve disease, 503
  massive burn injury, mortality determinants, 554
  splenic trauma, abdominal ultrasonography in, 408
Perforation, esophageal, nonoperative management, 415
Peripheral vascular disease, in heart transplant recipient, 686
Peritonitis, outcome, disease acuity and organ failure and, 744
Pfannensteil incision, incisional hernia and nerve entrapment in, 365
pH, interstitial, in chronic pancreatitis, effect of ethanol (cat), 223
Polycystic liver disease, adult, fenestration for, 286
Polymorphonuclear leukocyte (PMN). *See* Neutrophil(s)
Polymyxin B, local decontamination, prevention of esophagojejunostomy anastomotic leak, 172
Popliteal artery, trauma, limb salvage, 518
Portacaval shunt, small-diameter H-graft, effect on portal and effective hepatic blood flow, 601
Portal blood flow, differential effects of TIPS *vs.* HGPCS, 601
Portasystemic shunt, transjugular intrahepatic, effect on portal and effective hepatic blood flow, 601
Protein malnutrition, mucosal bacterial adherence, intestinal mucus barrier, and bacterial translocation (rat), 317
Protein metabolism, ubiquitin-proteasome pathway, muscle proteolysis during sepsis and other catabolic conditions, 307
Psychomotor aptitudes, for endoscopic manipulation, right-handed *vs.* left-handed individuals, 333

R

Reconstructive surgery, breast, skin-sparing vs. tradition mastectomy, 570
Rectal cancer
  risk, after abdominal colectomy for hereditary nonpolyposis colorectal cancer, 202
  staging, three-dimensional endosonography, 432
Reflux esophagitis
  antireflux surgery *vs.* conservative therapy, 295
  Nissen fundoplication *vs.* Toupet fundoplication, 647
Respiratory tract, upper, immunity, parenteral nutrition-induced changes, effects of enteral feeding (mice), 707
Ross operation, in congenital aortic valve disease, 503
Round ligament, right-sided, left-sided gallbladder and, 274

S

Sarcoma, small bowel, 300
Secretin, clinical uses, 145
Sentinel lymphadenectomy, in breast cancer (*letter*), 126
Sepsis
  muscle proteolysis during, ubiquitin-proteasome pathway, 307
  posttraumatic, plasma endotoxin in, 530
Short bowel syndrome
  body composition and absorptive capacity in, effect of low-dose recombinant human growth hormone, 88
  segmental reversal of small intestine for, parenteral nutrition dependency and, 401
Shunts/shunting, differential effects of TIPS *vs.* HGPCS on portal and effective hepatic blood flow, 601
Skeletal muscle, proteolysis during sepsis and other catabolic conditions, 307
Sodium, gallbladder transport, during cholesterol gallstone formation (prairie dog), 382
Somatostatin
clinical uses, 145
postprandial hypersecretion of neurotensin, in postgastrectomy patient, 377
Splenectomy, in hematologic malignancies, postoperative complications (*letter*), 131
Splenic injury, pediatric, accuracy of abdominal ultrasonography, 408
Staging
  breast cancer, sentinel lymphadenectomy in (*letter*), 126
  melanoma, 1
  rectal cancer, three-dimensional endosonography, 432
Stroke prevention, results of redo carotid endarterectomy, 512
Surgery/surgical technique. *See also specific procedures*
  electrocardiographic technique for positioning right atrial catheters during surgery, 165
  laparoscopic repair of paraesophageal hernia, 31
  laparoscopy in gastric adenocarcinoma, 262
  Pfannensteil incision, incisional hernia and nerve entrapment in, 365
  surgery after heart transplantation, 686
Surgical sponge, retained (*letter*), 442

T

Tetralogy of Fallot, one-stage *vs.* two-stage repair, hospital costs, 779
Thoracic artery, internal, bypass grafts for coronary artery bypass surgery, 785
Thrombolysis, intraoperative, limb salvage in popliteal artery injury, 518
Thymidine kinase gene, herpes simplex virus, adenovirus-mediated delivery (mice), 609
Thyroid carcinoma, medullary, cervical reoperation for, 734
TIPS. *See* Portasystemic shunt, transjugular intrahepatic
Tobramycin, local decontamination, prevention of esophagojejunostomy anastomotic leak, 172
Toupet fundoplication, for reflux esophagitis, Nissen fundoplication *vs.*, 647
Transplantation. *See specific organs*
Trauma
  blunt abdominal trauma in children, splenic injury, accuracy of abdominal ultrasonography, 408
  burns. *See* Burn injury
  gastrointestinal glutamine uptake, effect of growth hormone and exogenous glutamine (piglet), 97
  popliteal artery, limb salvage, 518
  systemic inflammatory response, plasma endotoxin in, 530
  type-2 cytokines in (*letter*), 132
Tumor(s)
  malignant
    liver, 39
    small bowel, 300
  pancreas, intraductal papillary-mucinous tumors, 637
Tumor necrosis factor, cardiovascular response to endotoxin (*letter*), 342

U

Ubiquitin-proteasome pathway, muscle proteolysis during sepsis and other catabolic conditions, 307
Ulcerative colitis
  DNA repair gene *MLH1* in, 718
  ileal pouch-anal anastomosis, stapled *vs.* handsewn, 666
Ultrasonography
  abdominal, accuracy for screening and grading pediatric splenic injury, 408
  three-dimensional endosonography, rectal cancer staging, 432

V

Vancomycin, local decontamination, prevention of esophagojejunostomy anastomotic leak, 172
Ventricular assist devices, use as permanent implants, 695

W

Wound healing, anastomotic, topical antimicrobial decontamination, 172
Wound infection, median sternotomy, management with muscle flaps, 766
